

Discovering Gold & Copper in the Yukon

Investment Highlights:

- *Yukon Focused: Underexplored with Excellent Geological Potential*
- *Recent Discoveries by Underworld, Kaminak and ATAC*
- *New High-Grade Gold Discovery Drilled at 3Ace Property*
- *Aggressive follow-up drilling to start at 3Ace in Q2 2012*
- *Widespread Surface Anomalies Identified at 3Ace*
- *Large Copper-Gold-Moly System Identified at Sonora Gulch Property*
- *Strategic Alliance with Capstone Mining (CS-T): great combination of exploration & mine development expertise*

Share Structure

(as of January 2012)

Shares Issued and Outstanding:	98,906,363
Warrants:	3,678,652
Options:	5,860,000
Fully Diluted:	108,445,015

3Ace Project New High-Grade Gold Discovery, SE Yukon

- Primary focus of 2011 drilling was the Main Zone. 2011 Drill Highlights include:
 - *4.61 g/t gold over 35.0 metres, including 106.21 g/t over 1.0 metre*
 - *2.58 g/t gold over 53.0 metres, including 17.72 g/t over 2.0 metres*
 - *4.37 g/t over 10.0 metres and 70.11 g/t over 1.1 metres*
- Nine new mineralized occurrences were identified at 3Ace in 2011, and a new 3 km trend of alteration and sulphide mineralization on Sprogge (adjacent property)
- Significant land position at the 3Ace and Sprogge Properties: total claim block is 225 km²

*Top: High-grade gold discovered at 3Ace
Bottom: Surface quartz vein containing visible gold at the 3Ace Project*

Management

CFO

Logging core at Sonora Gulch camp

Sprogge Project

High-Grade Gold, SE Yukon

- Optioned from Newmont and Alexco
- On-trend with the 3Ace Project and hosts a 2,400 by 1,200 m gold anomaly, which has returned rock samples up to 34.8 g/t gold

Sonora Gulch Project

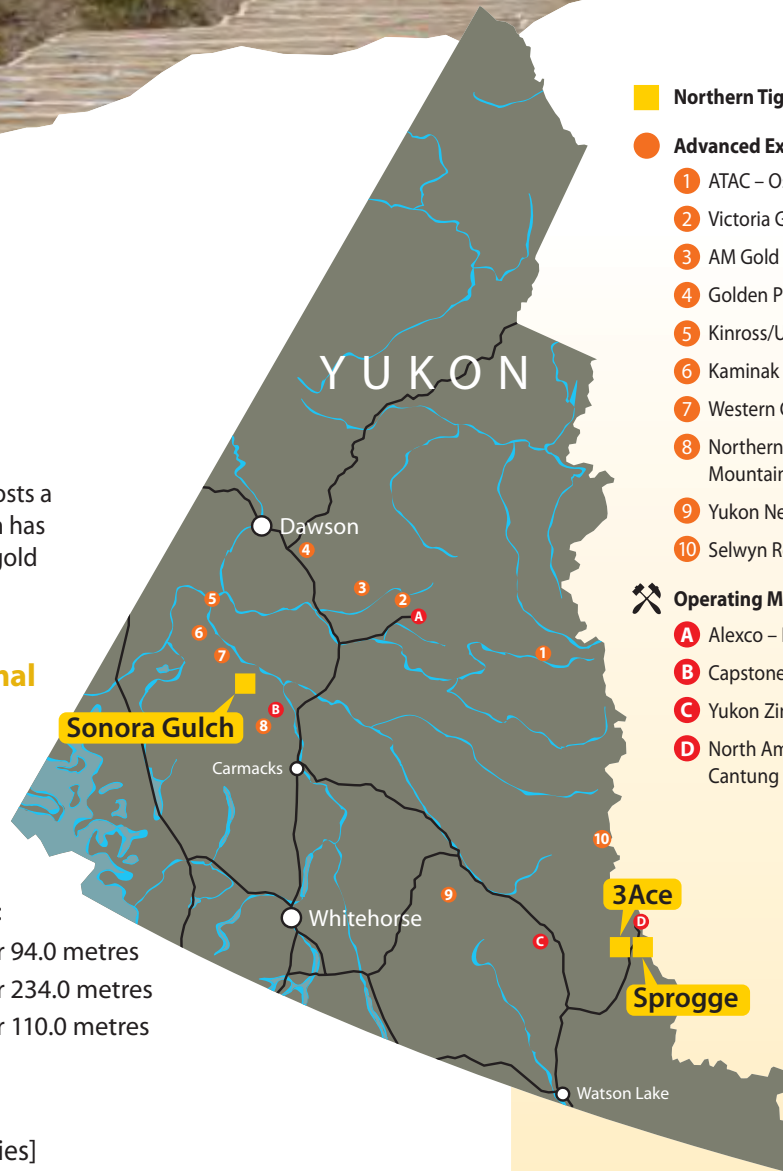

Copper Porphyry & Epithermal Gold Targets

- A large, multi-centre porphyry system hosting a 9 km² gold-in-soil anomaly
- 2011 drilling focused on the Gold Vein Zone – a 1.4 km by 500 m wide geochemical anomaly. Key Highlights:
 - 0.42 g/t gold and 3.8 g/t silver over 94.0 metres
 - 0.45 g/t gold and 3.0 g/t silver over 234.0 metres
 - 0.44 g/t gold and 2.6 g/t silver over 110.0 metres

Minto-Style Projects

[BOND, DAD, DEL, LED, MEL Properties]

- Five properties acquired from Capstone Mining; prospective for Minto-style copper mineralization

Northern Tiger Projects

Advanced Exploration Projects

- 1 ATAC – Osiris Gold Project
- 2 Victoria Gold – Eagle Gold Project
- 3 AM Gold – Red Mountain Project
- 4 Golden Predator – Brewery Creek Project
- 5 Kinross/Underworld – White Gold Project
- 6 Kaminak Gold – Coffee Project
- 7 Western Copper – Casino Project
- 8 Northern Freegold – Freegold Mountain Project
- 9 Yukon Nevada – Ketz River Project
- 10 Selwyn Resources – Selwyn Project

Operating Mines

- A Alexco – Bellekeno Mine
- B Capstone – Minto Mine
- C Yukon Zinc – Wolverine Mine
- D North American Tungsten – Cantung Mine
